

LAND TRADES CONSTRUCTION LTD

You imagine, We create

About Us

Land Trades Construction is an organization that creates based on your imagination. We focus on your needs and wants and build a 3D structure out of it with care, honesty, quality and value for money. LTC itself was born out of the need for creating modern, functional and comfortable pieces of real estate with a soul. Since 2015, we have upheld this value system and continue to expand our network of happy clients.

Our Values

- Health and Safety
 - Top-notch Quality
 - Honesty
 - Client Focus
 - Value for Money
-

Our Approach

Commitment

Our team has a duty of care to support the high standards of customer service. They are fully trained in end-to-end management of our projects, however many changes a client may require during our contract. We strive to demonstrate our commitment to customer care with integrity and sincerity.

Communication

We believe in open communication. As a team we take pride in working closely alongside the design team to provide holistic construction services. We keep our clients in loop, well-informed and updated with the ongoings of their project from the beginning. Plans and projections are shared in advance and open to adjustments as per changes to mutually agreed requirements.

Quality

We continue to strive to achieve the best quality management standards within the company. Our approaches incl

Management

A Management system has been deployed to manage Health, Safety, Environment, Commitment to customers and quality in all our projects.

Health & Safety

For us, the health and safety of our team comes first and all our procedures follow the right protocols to prevent injury, accidents, or damage to property.

Our Services

Client Testimonials

A quick look at what our clients say!

Build Granny's Annex in the garden

My experience with Land Trades Construction is very positive. Very good communication 24-7, project completed on time, very good quality of work, professional advice in many issues, competitive in pricing. On the minus side, if something is not on the contract or there is a slight change, then it is charged at a higher rate.

New build, 3-bed two-storey dwelling with attic

We used Land Trades Construction Ltd as principal contractor for the construction of a new house. Although we were inexperienced clients, having never undertaken a project of such magnitude before, Faizan helped guide us through all the decisions that needed to be made. He provided clear and regular progress reports and his paperwork was always in order. Overall, it was a positive experience and we would happily recommend Land Trades Construction for similar work.

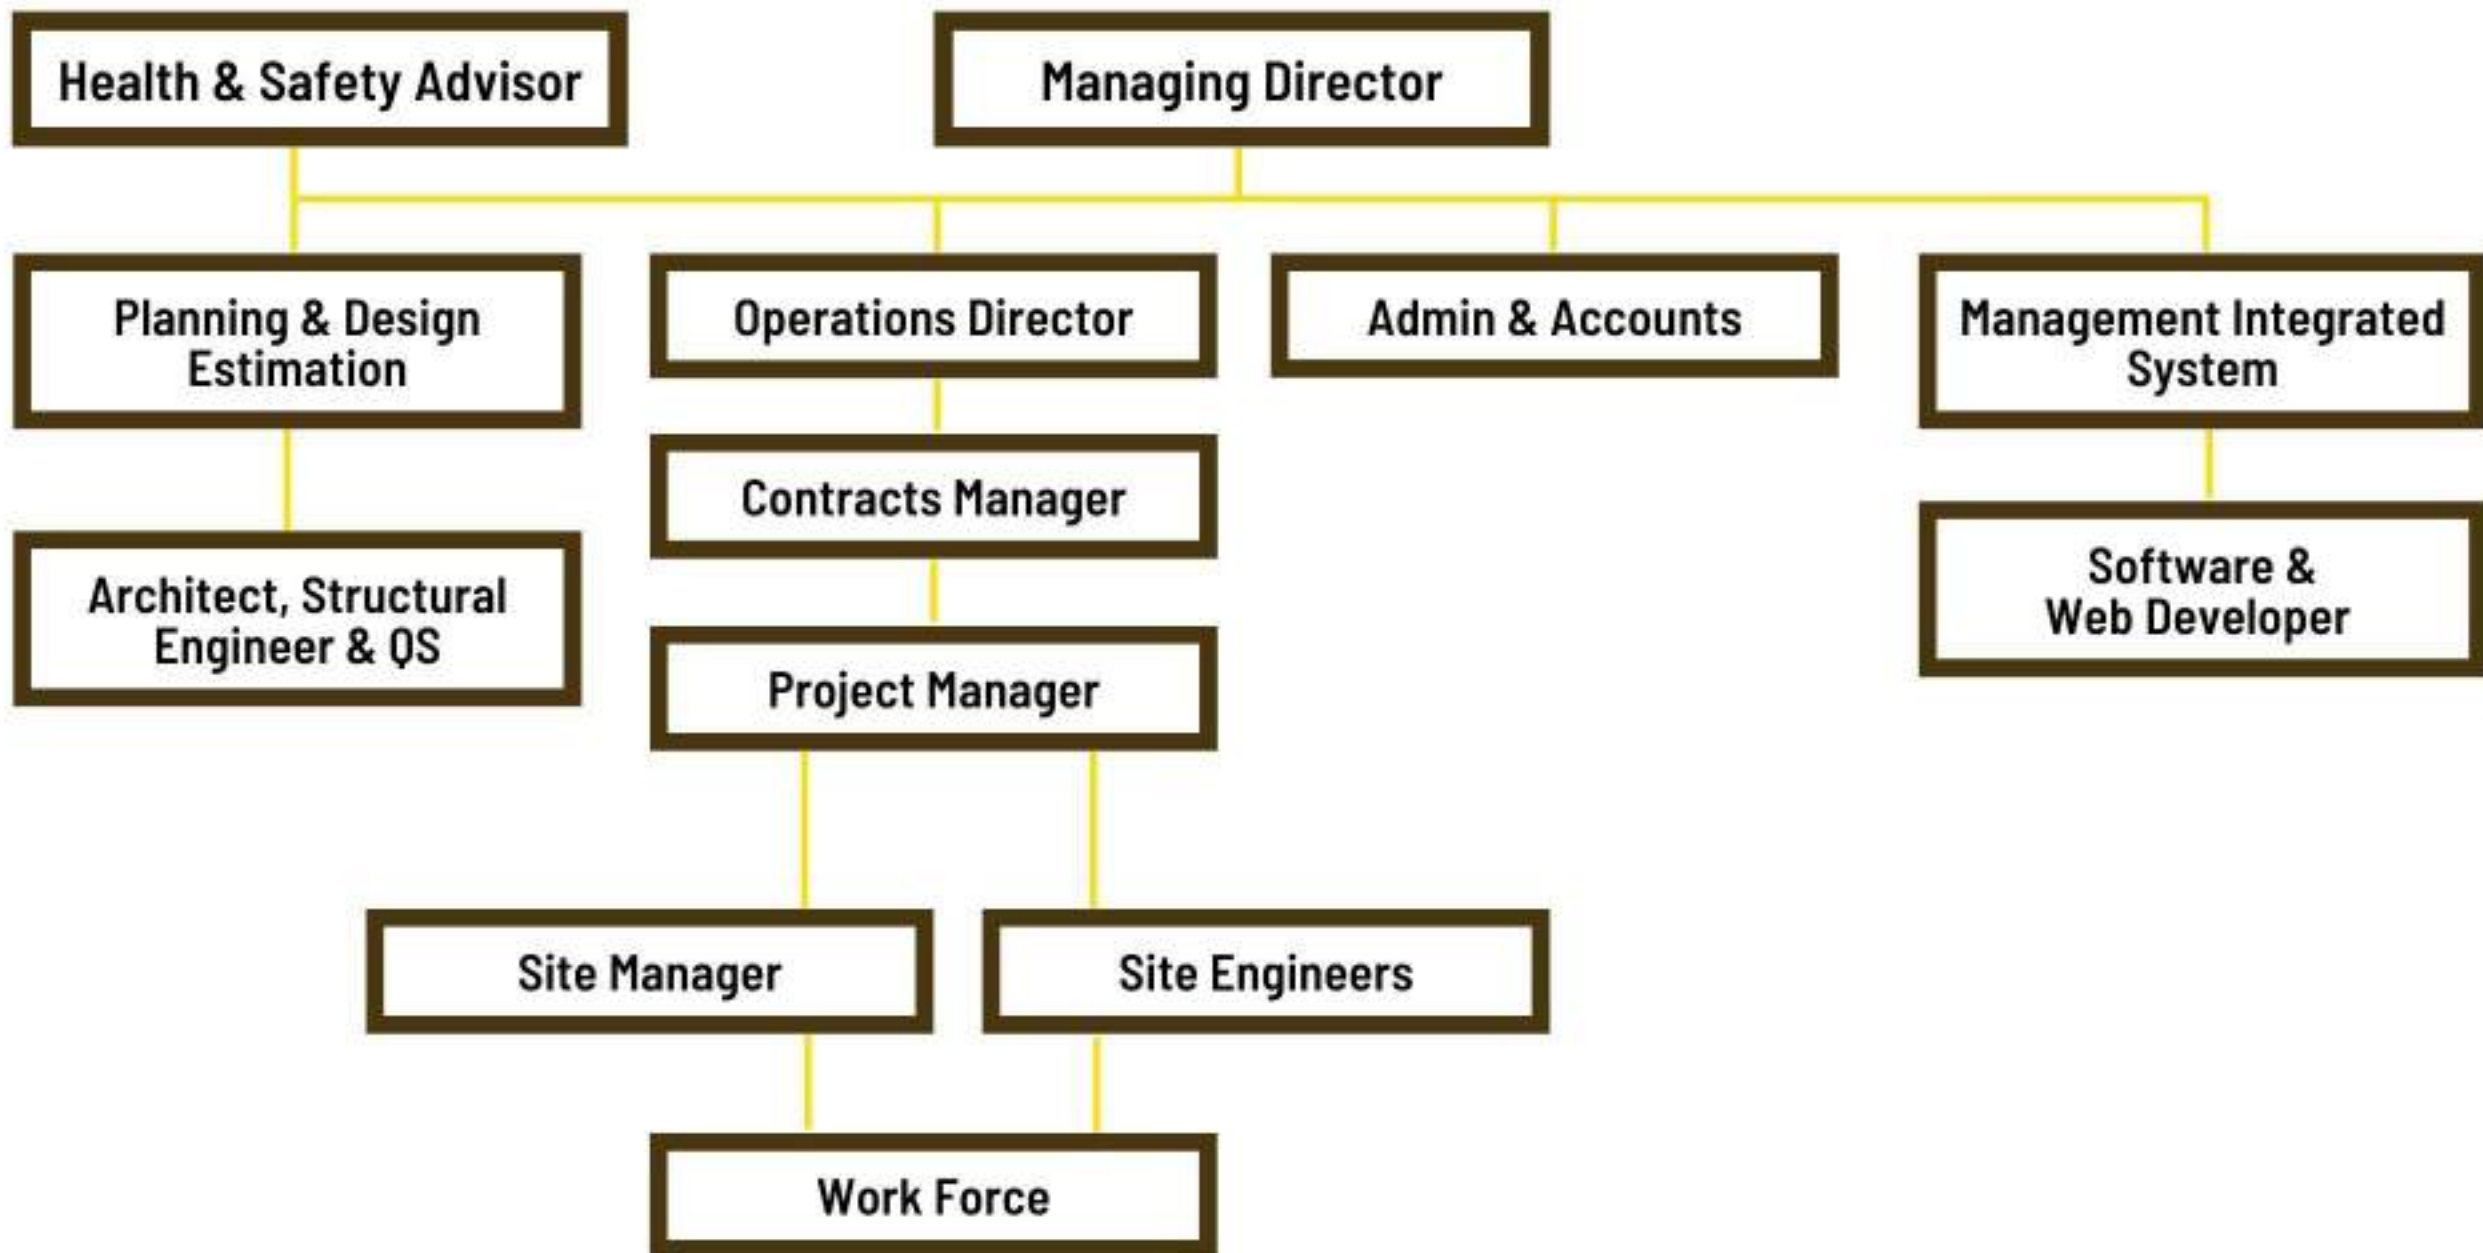

2-storey extension & garage conversion

Faizan was always on hand to discuss the build and give expert guidance. His team were friendly and helped to work out the details that architects and designers do not consider. Faizan manages the job professionally and ensured we knew what was required at each step of the project. Would use again, highly recommend.
